

12. Create a react application for the student management system having registration, login, contact, about pages and implement routing to navigate through these pages

Install

```
npx create-react-app student-app
cd student-app
npm install react-router-dom
npm start
```

App.js

```
import {BrowserRouter, Routes, Route, Link} from "react-router-dom";
```

```
function Home(){ return <h2>Home</h2>; }
function Login(){ return <h2>Login Page</h2>; }
function Register(){ return <h2>Register Page</h2>; }
function Contact(){ return <h2>Contact Page</h2>; }
function About(){ return <h2>About Page</h2>; }
```

```
export default function App(){
  return(
    <BrowserRouter>
      <nav>
        <Link to="/">Home</Link> |
        <Link to="/login">Login</Link> |
        <Link to="/register">Register</Link> |
        <Link to="/contact">Contact</Link> |
        <Link to="/about">About</Link>
      </nav>
      <Routes>
        <Route path="/" element={<Home/>}/>
        <Route path="/login" element={<Login/>}/>
        <Route path="/register" element={<Register/>}/>
        <Route path="/contact" element={<Contact/>}/>
        <Route path="/about" element={<About/>}/>
      </Routes>
    </BrowserRouter>
  );
}
```

Output:
